•	APPROVAL OF STATE ENGINEER	
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the same of the sa	
	following limitations and conditions: This permit is issued subject to all exist	1 - :
	rights on the source. If well is flowing, a valve must be instal	1
:	and maintained to prevent waste. The well shall be equipped with	
	2-inch opening, and an air line and a parshall flume. The locati	
	of the latter to be approved by the State Engineer. It is unders	
:	that this right must allow for a reasonable lowering of the stati	<b>c</b>
	water level at permittee's well due to any other ground water dev	elop-
	ment in the area. This source is located within an area designat	ed
	by the State Engineer pursuant to NRS 534.030; therefore, the Sta	te
	retains the right to regulate the use of the water herein granted	at
	any and all times.	
	The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial	use, and
	not to exceed 1.7 cubic feet per second , but not to excee	d a
	yearly duty of 5.0 acre-feet per acre of land irrigated from any all sources.	and/o
	Actual construction work shall begin on or before August 24, 19	67
	Proof of commencement of work shall be filed before September 24,	1967
	Work must be prosecuted with reasonable diligence and be completed on or before August 24, 19	68
	Proof of completion of work shall be filed before September 24.	1968
	Application of water to beneficial use shall be made on or before August 24, 19	69
	Proof of the application of water to beneficial use shall be filed on or before	1969
	Map in support of proof of beneficial use shall be filed on or before September 24.	10
